

ATTN: FIREARMS TRAINING DIVISION

ATTEND AN ACTION TARGET FIREARMS INSTRUCTOR TRAINING SEMINAR

BIRMINGHAM, AL – BIRMINGHAM PD - NOVEMBER 13-14, 2008

“Modern Firearms Training and Shooting Range Development”

Because up-to-date training and education are vital aspects of every job, we invite you to join us for a 2-day training event titled *Modern Firearms Training and Shooting Range Development*. This course will examine the challenges of today's firearms training requirements and shooting range management issues, and will present how modern shooting range equipment can help you meet those challenges safely, and effectively. We will then move to the range for a second day of live-fire training designed to demonstrate and reinforce the concepts discussed in the classroom.

Chuck Habermehl will be instructing in the classroom and conducting the live-fire training portion on the second day. Chuck is the owner and chief instructor of CQB, Inc. With over three decades of experience in firearms and defensive tactics training Chuck brings a wealth of knowledge and passion to share.

YOUR TRAINING EXPERIENCE WILL INCLUDE:

- * **The Realities Of Today's Gunfights:** We will review and analyze current law enforcement gunfight statistics, plus the physical and mental responses to combat stress. We will then determine how the results should shape your firearms training standards, practices, and policies.
- * **Qualification vs. Training:** Are there differences between the two? What are they? Learn why an understanding of these issues is so important, and why you do not have to settle for one or the other.
- * **Legal and Financial Consequences of Inadequate Training:** We will examine the court cases, decisions, and monetary awards that should shape your current training liability policy.
- * **Shooting Range Design:** We will discuss critical issues relating to the planning and construction of indoor and outdoor shooting ranges. This discussion is applicable to not only new range projects, but to current range upgrades and expansion as well.
- * **Shooting Range Equipment:** As a common thread woven through each of the topics listed above, we will discuss the following Action Target products.

- Portable Targets* - Powerful training on a budget – Bonus shooting session on the 3rd day!
- The Truth About Steel and Steel Targets* - Learn to buy and use steel targets wisely
- Moving Targets* - Portable and permanent applications, with moving steel target options
- Turning Targets* - Many varieties, many uses
- Shoothouses* - Close quarter indoor combat training in a ballistically safe environment
- Reactive Steel* - Train to shoot faster and more accurately
- The Truth About Bullet Traps* - See examples of virtually every type of bullet trap ever used
- Indoor Ranges* - Stalls, baffles, retrievers, bullet traps, and ventilation

- **Putting It All Together:** The second day will be spent on the range with Chuck Habermehl of CQB, Inc. Chuck will reinforce the classroom material through live fire exercises designed for real world application and success.

REGISTRATION

You will need to complete and return the included seminar registration form for each individual that will be attending. Upon receipt of your registration form(s), we will send you a confirmation packet containing a detailed agenda, hotel information, necessary maps and directions, and other important details.

COST PER ATTENDEE

The \$75 tuition includes a complete coursebook and binder, a hat, and a certificate of completion.

SCHEDULING

The classroom portion on the first day will begin at 8:00 am and will conclude by 5:00 pm.

The live-fire portion on the second day will begin at 8:00 am and will conclude by 5:00 pm.

TRANSPORTATION, LODGING, & MEALS

You will be responsible for these. Hotel information will be provided in the confirmation packet you will receive after submitting your registration. Information will be provided on-site regarding places to go for lunch, or you can bring your lunch with you if you prefer.

EQUIPMENT REQUIREMENTS (if you are participating in the live-fire portion)

- * Duty pistol and rig
- * 500+ rounds of ammunition
- * Extra magazines
- * Eye and ear protection, plus a hat
- * Appropriate dress for the season
- * Notebook and pen even if you do not want to shoot

This is an educational opportunity that you cannot afford to miss. Participation is limited, so do not delay. For more details contact Rob at (801) 377-9124. We look forward to seeing you!
